(54) Title: METHOD FOR SHARING CALENDAR CONTENT IN COMMUNICATIONS SYSTEM, COMMUNICATIONS SYSTEM AND TERMINAL

(57) **Abstract:** The invention describes a method for sharing calendar content in a communications system, a communications system, and a terminal. The communications system comprises a terminal (100) and at least one remote device (102, 104), and the terminal (100) is configured to generate calendar content from one or more calendar notes. The communications system is configured to associate calendar notes with calendar profiles of the terminal (100), which define a unique view to the calendar content on the basis of the calendar notes associated with the calendar profile; to select in the terminal (100) at least one calendar profile for generating calendar content to be shared; to generate the calendar content to be shared on the basis of at least one selected calendar profile and the calendar notes associated with it; and to share the generated calendar content between the terminal (100) and the remote device (102, 104).
